We prepare and inspire you for your life's work

Village Guild Productions teaches you the trade you want – and we do it in the dramatic environment of filmmaking. Why? Because we believe that all of life is a stage and you should be able to create the part you want in an exciting and rewarding way.

At Village Guild you will meet like-minded people who are learning a trade in a cooperative – not competitive place. You will not only learn your trade but you will also make valuable contacts and friends.

When a film is in production you will participate according to your trade in the actual development of the film.

In the world of theater everything is possible. We want you to learn your trade with that idea as your foundation.
